REPORT  
OF THE  
SUPERINTENDING SCHOOL COMMITTEE  
OF THE TOWN OF ALLENSTOWN.

---

The Superintending School Committee of Allenstown respectfully submit the following report for the year ending March, 1876 :

DISTRICT NO. 1.

WILLIAM D. MARDEN, Prudential Committee.

Teacher, Sara L. Kenison. Length of summer term, 10 weeks ; wages of teacher, per month, \$22 ; whole number of scholars, 17 ; average attendance, 14.

WINTER TERM. Teacher, Mary H. Batchelder. Length of term, 13 weeks ; wages per month, \$31 ; whole number of scholars, 20 ; average attendance, 17.

This is indeed the No. 1 district in town. An excellent and new school-house, intelligent and enterprising parents, orderly and studious children, give tone and character to any school district. Mr. Marden may congratulate himself on having been very fortunate in the selection of his teachers, for both of them are fine scholars, and showed a rare adaptation of talent to the position. Miss Batchelder has had experience, and may be relied upon as a success every time.

# ANNUAL REPORT OF TREASURER,

FOR THE YEAR ENDING MARCH 1, 1876.

---

The Town Treasurer respectfully submits the following report of receipts and expenditures for the fiscal year :

## RECEIPTS.

Balance on hand March 1, 1875,	\$829 23
Received of Wm. D. Marden, Collector,	8,640 60
Received of State Treasurer, Savings Bank	
tax,	647 14
Received of State Treasurer, Railroad tax,	229 96
“ “ “ Literary fund,	61 06
“ County Treasurer, for support	
of paupers,	887 40
“ David Hayes, Collector, 1872,	3 60
	<hr/> \$11,298 99

## EXPENDITURES.

Paid Town orders of the Selectmen num-	
bered from 1 to 122,	\$4,614 40
Paid State tax,	1,480 00

## DISTRICT NO. 2.

FRANCIS CALL, JOHN LEAVITT, Prudential Committee.

Length of summer term, 7 weeks ; length of winter term, 17 weeks ; average pay of teacher per month, \$22 ; whole number of scholars, 8 first, and 13 second term ; average 7 and 9. Teachers, Ada M. Dowst and Villetta M. Thorne.

Both of these teachers are young, and this was their *maiden efforts*, and both of them were very popular and successful.

Everything pertaining to the schools in this district has moved on so quietly this year, that our faith in a "*temporal millennium*" has been greatly strengthened !

## DISTRICT NO. 3.

CHARLES E. JOHNSON, Prudential Committee.

Length of school, 10 weeks in summer and 13 in autumn ; wages \$22 per month. Miss Eva I. French taught both terms, and gave the most entire satisfaction. Miss F. is one of the most promising young teachers we have ever known.

## DISTRICT NO. 4.

JOHN F. BARTLETT, Prudential Committee.

Length of summer term, 12 weeks ; whole number of scholars, 39 ; average, 25 ; wages, \$32. Autumn term,—13 weeks ; 43 scholars ; 32 average ; wages \$36. Winter term—13 weeks ; 44 scholars ; 38 average ; wages, \$36.

All of these terms have been taught by Conie M. Cochrane, in the "old brick" school-house, under the usual embarrassments of such a school in such a place. And this teacher has had some *special* trials during the last term, but a cool head, an honest purpose and fidelity to the right will always, sooner or later, triumph. Miss C. may rest assured that she has the fullest confidence of the Committee, as well as the approval generally both of parents and children of this school and the community.

## CHINA SCHOOL, (SO CALLED) IN DISTRICT NO. 4.

Length of summer term, 10 weeks ; whole number of scholars, 85 ; average, 67 ; wages, \$32 ; Autumn term,—13 weeks ; whole number of scholars, 70 ; average 56 ; wages, 32.

Mary I. Dennison taught both of these terms, and so added to her former glory as teacher in this school, that people seemed to have an impression that she was the most perfect young lady and teacher, that ever lived, and the committee sympathized with them in the high appreciation both of her talent and her character. But *even Mary* has at last shown herself *human* by leaving this *great field* of usefulness, and *devoting herself entirely* to the interests of *one student*.

The winter term was taught by Miss Ada Bartlett ; length of term, 13 weeks ; whole number of scholars, 79 ; average, 65 ; wages per month, \$32.

This was Ada's first effort, and by patience and perseverance, she has succeeded better than an average, under existing circumstances.

The great want of this district is a new and commodious school house and a graded school. And your committee would express the fond hope that the next annual report may embrace the joyful fact that so desirable an object has been attained.

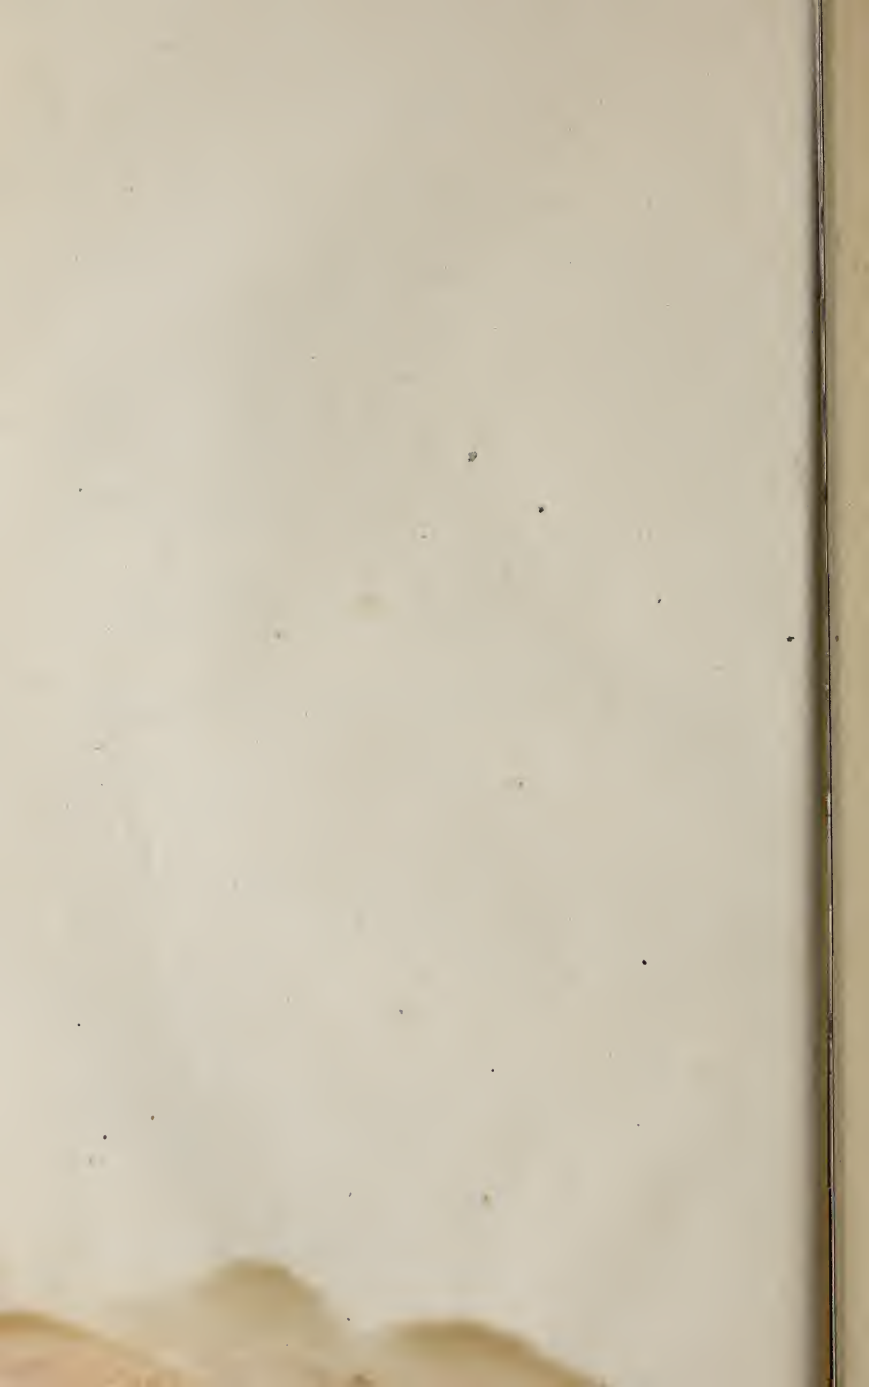

Fourteen hundred and thirty dollars and thirty-eight cents have been appropriated for schools, as follows :

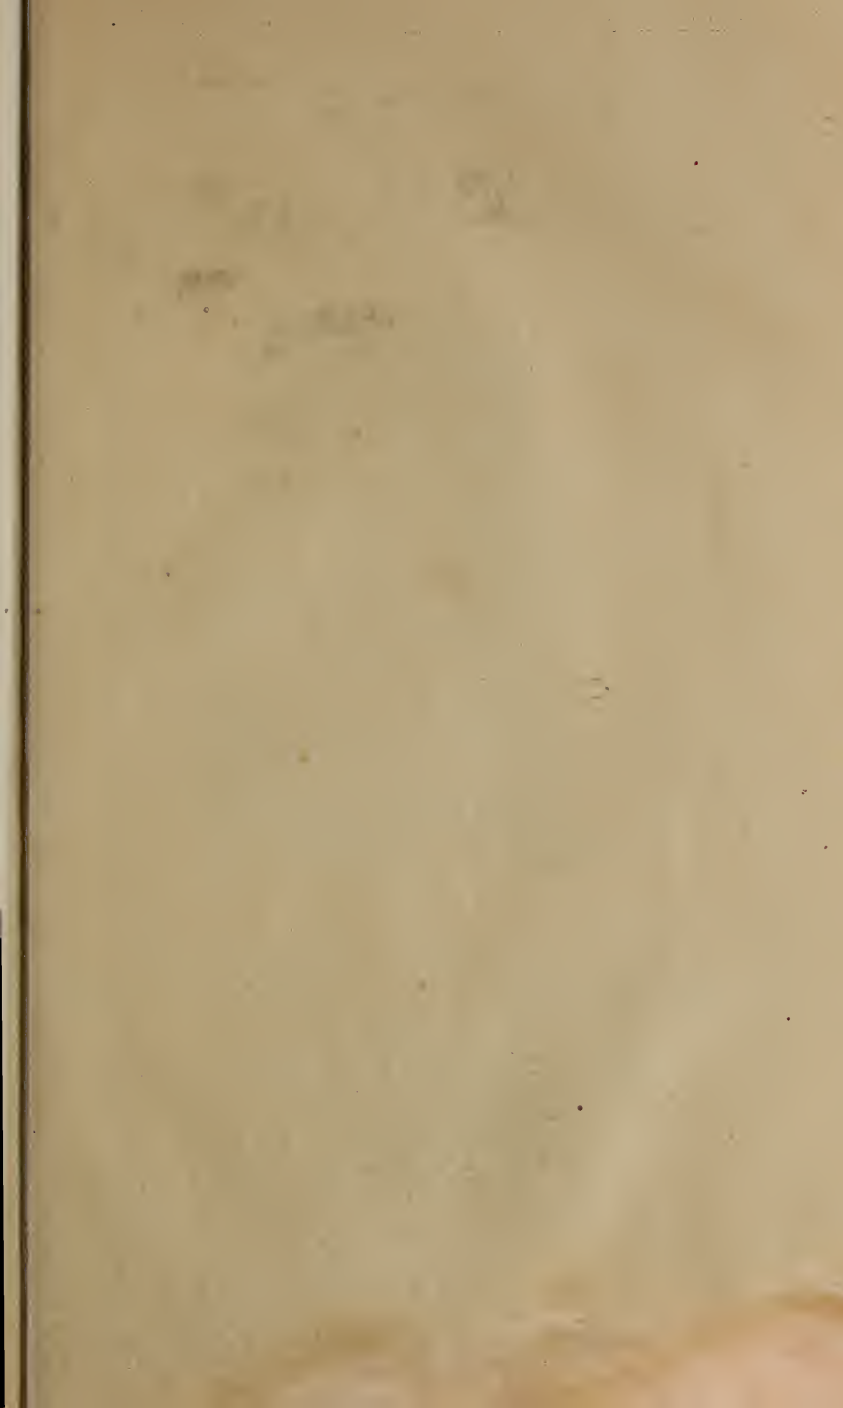

No. 1,	.	.	.	.	.	\$163 52
No. 2,	.	.	.	.	.	136 32
No. 3,	.	.	.	.	.	137 17
No. 4,	.	.	.	.	..	993 37

We have had thirty-two months and three weeks schooling, employing eight teachers. All the schools have been exceedingly prosperous, and the money this year very judiciously expended.

H. H. HARTWELL,
